

D.A.I. 95 Wash

Dampening Roller Cleaner and Rejuvenator

Product Usage

Alcohol Dampening Roller Cleaner and Rejuvenator - with hydrophilic additives

Features and Benefits

- Good solvency power:
to clean deeply and quick the dampening rollers, i.p. the ductor roller
- Gives back to the dampening rollers its former good water transfer ability
- Water miscible:
to remove ink and paper residues in one step
- evaporates good and without greasy residues
- does not leave disturbing residues in the dampening system
- contains only aromatic-free solvents
- low odour and gentle to rollers
- Flash point above 26 °C - safer working conditions

Packaging

10x 1 L bottles, 4x 5 L cans, 10 L cans, 200 liter drums

Directions

Apply D.A.I. 95 Wash onto a clean rag and wash dampening ductor roller manually. use on daaily base or on request
